

In 2025, the Ohio Optometric Foundation rebranded as **iSee Ohio** and launched a new website – iseeohio.org. Our mission remains the same, iSee Ohio helps children meet their full potential by improving access to vision care in their communities... because every child deserves to see. The new name, iSee Ohio, reflects our vision to grow and expand access to quality, comprehensive eye care for Ohio's school children. Thank you for joining us in this important work. Together, we can ensure even more children get the care they need, and the clearer future they deserve.

iSee Ohio was proud to be selected by the Ohio Department of Health to participate in the inaugural OhioSEE program. The program will launch in 2026 and we look forward to sharing how this innovative initiative impacts students in fifteen counties.

“

“I'm so thankful for this program!

I feel that Wade has really done better with his handwriting and the letters that he is writing because he can see the letters he needs to write, and he can see the lines that he should be writing on. He also has done a better job of seeing what is on the board and matching what he sees on the board to the worksheet book page he has in front of him. Thank you so much for this wonderful help!”

—Ms. Liz Wiseman,
Newark City Schools
